

JumboTrack TC707A

Live tracker for real time transport monitoring

24/7 real time tracking

State-of-the-art technology enables you to track and monitor your consignments in real time to see the current status as well as the progress of your consignment to date

Cost effective and sustainable

The built-in rechargeable battery provides a runtime up to 3 months. The tracker can be recharged with the optional charging station.

Electronic lock

JumboTrack TC707A is also an anti-theft device. It triggers an alarm when the seal is opened or the 1,8mm steel wire is cut.

What functions does the tracker have and what can it be used for?

LIVE GPS-Tracker with access via website.

Can be used multiple times and is **sustainable due to rechargeable battery.**

Positioning via GPS+GSM **with evaluation options.**

Information on **temperature** and **battery status** are displayed.

Email alerts for selected GEO zones.

Information as soon as the via the **"electronic lock"** function.

Monitoring function to open with date-time and location information.

Automatic report - You receive all important information automatically by email.

Have the **reports sent to you automatically by email, all without logging in!**

Technical data

Positioning: GSM + GPS

SIM: Micro SIM card (included in the delivery)

Communication: 2G Quadband 850/900/1800/1900 Mhz

Access connection: online access via website (no software installation required)

Battery: Rechargeable (USB) lithium-ion battery 1.500 mAh, 3.7V

Battery life: approx. 90 days with transmission interval every 6 hours

Transmission interval: configurable from 30 minutes (battery life changes accordingly)

Dimensions: 80 x 53 x 23mm

Weight: ca. 100 grams

IP Protection class: IP65

Working temperature: -30 - +70 degrees C.

Display: route travelled, temperature, lock activation

Alarm: GEO zones, open seal or steel wire cut, low battery charge level

Notification: by email, as well as display in the web portal

Evaluation options: distance travelled, temperature history, lock activations

Accessories: charging station with USB cable, spare steel wire for CUT alarm
