

# TELL)))TILT

## Your products must not be tilted? Monitor cost-effectively with Tell-Tilt indicators!

Self-adhesive tilt indicator for transport monitoring.

Activation takes place by peeling off the protective film on the reverse side and sticking it with the self-adhesive back to the shipping goods. The indicator field of the tilt indicator turns red if your product at risk of tipping has been tilted more than 80°.

Dimension: 74 x 60 x 5 mm

Packaging unit: 100 pieces
