

# TELL)))TILT PLUS

## Your products must not be tilted? Monitor cost-effectively with Tell-Tilt indicators!

Self-adhesive tilt indicator with degree scaling for transport monitoring.  
Activation takes place by peeling off the protective film on the reverse side and sticking it with the self-adhesive back to the shipping goods.  
Brass balls roll into the corresponding indicator field during tipping.  
Dimension: 118 x 118 x 8 mm Packaging unit: 50 pieces

- ➔ Guarantee for high safety when transporting goods.
- ➔ Triggering is displayed in the tilt angle range already from 30° - 80° in 10° steps.
- ➔ Tilt movements to the left or right are displayed separately.
- ➔ A rotation of 180° (head position) is also displayed.
- ➔ Manipulation secured due to roll-back protection, as well by serial numbers with barcode.
- ➔ Certified by the SGS Group.
